How to Specify the ESTO Bench

Model # **ESTO-BENCH**

The ESTO soft seating bench is a highly flexible and versatile seating solution that is perfect for flexible classroom designs. It can be effectively used in combination with the ESTO 2-Student Team Table or utilized on its own for a classroom corner or common area. With its connecting corner table, you can easily daisy chain the ESTO bench to create multiple configurations. One of its most noteworthy features is the optional dry-erase seat back, which allows teachers to easily write the students names or display encouraging messages.

FEATURES:

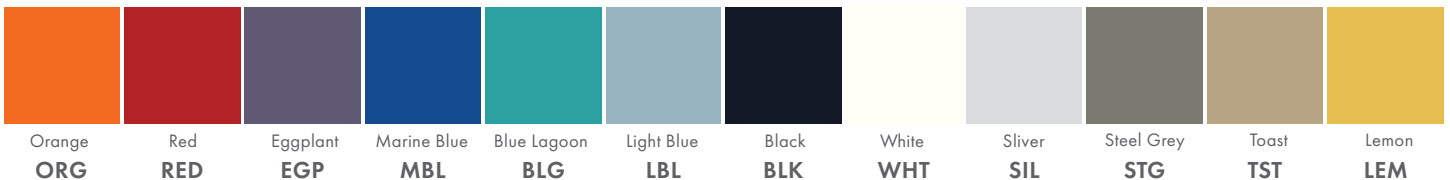

- Removable Upholstered Seat and Back For Easy Change Out
- Durable All-Foam Construction
- Cushioned Seat Topper for Added Comfort
- Double-Stitching Thread Lines for Added Strength
- Choose from 12 colors!
- Optional Dry Erase Seat Back for Student Messaging
- Two Backpack Hooks on Each Seat Back
- Extra Attention and Detail to Tailoring for a Perfect Fit
- Made in the USA
- Limited Lifetime Warranty

Back & Connecting Table Surface Options

○ **Dry Erase on Baltic Birch** *NOT AVAILABLE FOR CONNECTING TABLE

Our Dry Erase surface with a substrate of Baltic birch requires no T-molding or edge banding. The Dry Erase allows the user to write names, schedules, or anything they need on the backs of the bench! The edge is exposed layers of wood that are sealed with a conversion varnish, providing a smooth durable satin finish.

○ **High-Pressure Laminate on Baltic Birch**

Our high-pressure laminate surface with a substrate of Baltic birch requires no T-molding or edge banding. The edge is exposed layers of wood that are sealed with a conversion varnish, providing a smooth durable satin finish, which offers beautiful aesthetics and a seamless edge around the back of the bench. Durability with texture that creates a warm environment.

○ **FENIX® Innovative Materials on Baltic Birch**

Award-winning Fenix offers premium smart innovative material. Our Fenix surfaces with a substrate of Baltic birch requires no T-Molding or edge banding. The edge is exposed layers of wood that are sealed with a conversion varnish, providing a smooth durable satin finish. Fenix Innovative Surfacing is a soft to the touch, anti-fingerprint, ultra-matte surface. Its premium make up creates a surface that is highly resistant to scratches, abrasion, and repeated cleaning. This smart material also boasts thermal healing of superficial micro-scratches.
