

# HookMax

Ligature Resistant Hook – Releases at Maximum 10 lb Load

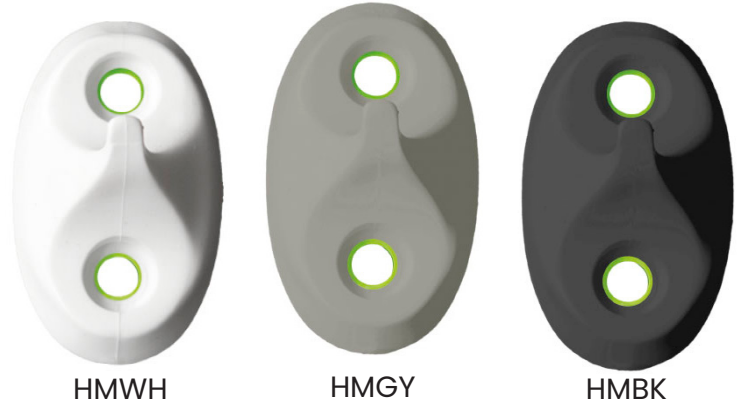

- Releases at maximum 10 lb load
- 360° release
- Flexible material prevents physical injury

Despite the hook's "normalized" design, the unique choice of materials combined with specific design details make it both safe and functional. The variety of colors offer the opportunity for a tailored interior design.

The hook holds the weight of an item of clothing or a towel, but releases when an extra force is applied. The hook does not break, it bends, and forces the ligature to slide off. It releases in all directions and can be placed close to furniture, doors, etc.

### Assortment

### Technical Data

Size: H 2.05in x W 1.24in x D .85in  
 Load release tests of the hook using a string, shoelace, or a rope made from bedsheets releases at max 10lbs

### Materials

PC/ABS (core) and TPU (outer piece)

### Mounting

Mount to a flat surface to obtain a tight fit between the hook and the wall to hinder the attachment of a string or similar

### Maintenance

Resistant to alcohol and most detergents

### Delivery & Warranty

Most orders ship within 1-2 weeks. For special orders, delivery time may vary. 3 Year Warranty applies to ascribed use. Full Warranty against manufacturing defects.

### Sustainability

The hook's design and material are chosen to extend the product's lifetime. Recycle as hard plastic.

Designed and produced in Sweden. Patent pending.

The hook does not break, it bends, forcing the ligature to slide off. The hook then retains shape and function.
