

# Pathmaker

## 42 X 60 PNEUMATIC

### *The First Truly ADA Compliant Table Collection*

that Embraces Universal Design principles for hands on learning. Innovation that appears simple but redefines how equity is built into learning spaces.

#### Up to 2 ADA compliant seating positions

- Simple adjustment no tools required
- Patent Pending Lift System
- Durable Butcher Block Top with Soft Rounded Corners
- Industrial Casters

Designed for Equity, Built for Everyone™

**Learn. Think. Do.™**

Furniture solutions for flexible and agile learning environments that encourage individual choice, increased movement and dynamic student engagement.

For hands-on learning environments, meeting ADA requirements is particularly challenging as most large format worktables are not height adjustable. Tables that are height adjustable typically require tools and extra time to make the necessary adjustments.

Our patent pending pneumatic lift system is designed to foster quick and seamless adjustment of a 42"x60" butcher block tabletop. Easy height changes combined with durable steel construction ensure that the Pathmaker Table will meet the rigorous needs of STEAM classrooms and makerspaces everywhere.

The Pathmaker Table Series is designed to blend seamlessly with our Explorer Series offering a total solution for any hands-on learning environment. This creates exceptional spaces where access is assumed, not requested. Spaces in which every learner can perform to their potential, while safeguarding personal dignity and affirming every individual's value.
