*Classroom Seating
Just got Smarter!*

SUBTLE MOVEMENT – With an 11-degree seat back flex and 5-degree frame flex on the cantilever model, Cogni promotes healthy circulation and ergonomic support — fueling focus and movement all day long.

ERGONOMIC COMFORT – Designed for all the ways students sit, Cogni's contoured seat, supportive back, and waterfall edge keep them comfortable and moving without being distracting to others.

SENSORY-FRIENDLY DESIGN – Patent-pending sensory surface on the chair shroud boosts tactile engagement, grounding students and enhancing focus—empowering learners of all styles to connect more deeply with their education.

HEEL-WHEEL – Patent-pending heel-wheel technology delivers smooth, controlled mobility, doubles as an anti-tip safeguard, minimizes noise and floor wear, and turns into a built-in dolly for up to four stacked chairs.
