Nightstands, Chests & Desks

The key to Attenda's strength and durability is its advanced construction. Molded in specially formulated, high-impact polyethylene, each Attenda® product is structurally enhanced for increased strength and durability. They are solid as a rock, yet feature seamless construction with rounded corners for added safety and security. Each piece is designed to be attached flush to the wall or floor.

Features That Matter

Anti-Ligature Design

The one-piece, roto-molded design eliminates pass throughs and tie offs, thus reducing ligature risk.

Contraband Resistant

Specifically designed without any creases or nooks to mitigate the ability to hide contraband.

Easy Cleanability

Bleach solutions and hospital-grade cleaners can safely be used for sanitation without affecting the surface material or color.

Extreme Durability

The heavy-duty, structurally reinforced design offers enhanced safety for residents and peace of mind for staff.

Foam Filled Reinforcement

Platform beds are filled with a rigid polyurethane foam for increased durability and acoustic absorption.

Rounded Edges

Smooth, rounded edges provide a pleasing aesthetic and contribute to a safe design.

Infection Control

The specially formulated, high impact polyethylene is chemically resistant to blood, vinegar, urine, feces, salt solutions and chlorine solutions, allowing for easy sanitization and superior infection control.

TruColor™ Technology

Our premium TruColor™ technology creates full and consistent coloring that is void of any streaks, speckles or other color disruptions.
