

**OVERVIEW**

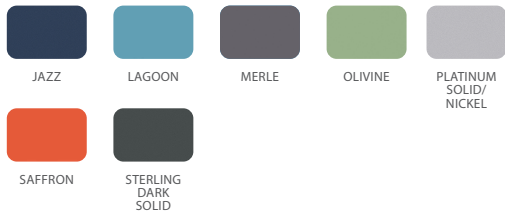

Simple, refined design with a range of styles and finishes suited to support work and learning from anywhere on campus. Comfortable seat shape and no-pinch waterfall edge for relaxed and focused learning. Contoured back flexes to align with upright and relaxed postures to support any learning preference.

**MATERIALS**

A durable single-shell flexible molded seat/backrest shell is contoured with rounded edges for comfort. Shell is manufactured using virgin glass filled polypropylene. All virgin material eliminates thermal degradation from excessive regrind for enhanced durability.

Front and rear legs are formed 7/8" (22mm) OD 14ga. tubular steel parts with two formed tubular steel seat supports welded together.
